THE LANDSCAPE DEPARTMENT

It pays to have a well-planned planting! You would not think of building a house without a plan to go by. So, too, if you would secure the maximum enjoyment from your grounds with the least expense, you should have a plan to plant by.

The following examples of actual plantings designed and planted by us give you an idea of our services. Will you not ask how we may assist you? You are under absolutely no obligation.

Herbs \$.30 each; \$3.00 per dozen unless otherwise noted.

Are you looking ahead to the period after we have won the war? It may be several years in the future but what are you doing this year to help provide for your family then?

Our suggestion is to plant now—this year—fruit trees and small fruits that take several years to come into bearing. For example, planted this spring, a small bed of asparagus will furnish delicious meals in 1944; raspberries and blackberries will bear copiously then, too. Dwarf fruit trees planted now should begin bearing in about three years.

May we help you plan your garden?

FRUIT TREES

Ready-to-Bear Trees:

We have a fine stock of several times transplanted 5- and 6-year-old trees. Available in McIntosh, Baldwin, Fameuse and Rhode Island Greenings. These are ready to begin bearing within a year or two. Specially priced at \$2.25 each, \$20.00 per ten.

Combination Fruit Trees:

Grow 5 varieties of apples all on one tree! We offer 5-N-1 apple trees priced at \$2.50 each. Varieties grafted on each tree are Yellow Delicious, Double Red Delicious, Red Rome Beauty, Yellow Transparent and Stayman's Winesap.
